Shree Shiv Shakti Enterprise is a multi discipline company that has been in operation since 2017 in the field of services and contracting. We have a broad client base, servicing in all aspects of works includes procurement, fabrication, scaffolding, erection, and testing and commissioning assistance for civil, mechanical, electrical & instrumentation jobs covering everything of the projects under one roof.

We are a totally independent company, which enables us to joint venture with various prestigious companies that are also specialists in their particular fields of the industry.

Our sustained success depends upon providing our customers with the highest quality services at a fair price while maintaining our profits so that we can continue to build a strong company and provide a return to our employees and stakeholders.

- Factory construction & maintenance – This has been traditional business since 2017. We have in house capability for civil, mechanical, and electrical & instrumentation and scaffolding & labour supplier. The emphasis would shift to civil foundations & civil structural work and EPC jobs.
- Hydro, irrigation, water supply projects – Initially we will start with small projects and gradually built up capacity.
- Shipping related – Modules and piping spools for ships including a galvanizing plant for galvanizing piping spools and doors of ships

FINANCIAL ACHIEVEMENTS

STEEL

ALLUMINIUM

CEMENT

For over 6 years we've led with vision, contributing to many of the India's most ambitious projects, iconic places, remarkable experiences and prosperous communities. And there is more to do.

An interdisciplinary Shree Shiv Shakti Enterprise, we offer an end-to-end planning & development solution through allied specialist firms: In Site, for inspired planning, urban design and landscape architecture, and quantity surveying experts. Our cadres are classified according to their experience and responsibilities, starting with the management of the company. They are well experienced in managing the business.

Our people are guided by a profound sense of purpose, with an abiding responsibility to those who experience our work. Our ambition is to plan, create, engineer and manage delivery of the environments essential to the success of clients and communities. And with these gifts we reward users and owners with prosperity, comfort, community, health, safety and memories.

Engineers are classified according to their expertise in terms of concrete, concrete works, insulation work, painting, scaffolding, electrical works, mechanical Works, Quality control engineers with good experience of the requirements of oil companies, providing an engineer to calculate quantities and pricing to facilitate the work of the advances on a monthly basis, supported by all the drawings and accounts required to prove the validity of the advance numbers, and thus the cadres hierarchy through the competent cadres and middle cadres organization and trained labour.

NAND KISHOR CHOURSYA
Director

OUR MISSION & VISION

OUR MISSION

Whatever good things we build, end up building us, create opportunities, achieve the extraordinary to be rewarded with success, be responsive, reasonable, reliable, and responsible, anticipate clients' needs, deliver on time & honor commitment, Be an integral part to clients' success, Integrate global & local perspectives, promote sound management of resources & contribute to a better quality of life.

OUR VISION

Adhering to the highest standards of ethics, we stand by everything we do, completing the job within time and continuously strive to improve the performance and achieving the challenging targets without lost time injuries. Our sustained success depends upon providing our customers with the highest quality services at a fair price while maintaining our profits so that we can continue to build a strong company and provide a return to our employees and stakeholders.

OUR VALUES

EXCELLENCE

We are in a hazardous business, and are committed to excellence through the systematic and disciplined management of our operations. We follow and uphold the rules and standards we set for our company. We commit to quality outcomes, have a thirst to learn, and to improve. If something is not right, we correct it.

RESPECT

We respect the world in which we operate. It begins with compliance with laws & regulations. We hold ourselves to the highest ethical standards and behave in ways that earn the trust of others.

ONE TEAM

Whatever the strength of the individual, we will accomplish more together. We put the team ahead of our personal success and commit to building its capability. We trust each other to deliver on our respective obligations.

COURAGE

What we do is rarely easy. Achieving the best outcomes often requires the courage to face difficulty, to speak up and stand by what we believe. We always strive to do the right thing. We explore new ways of thinking and are unafraid to ask for help.

QUALITY POLICY STATEMENT

Shree Shiv Shakti Enterprise will strive to provide the highest quality of trading & engineering services complying with the requirement of ISO 9001:2008 and any other statutory requirements.

To achieve company objectives and customer's satisfaction, Shree Shiv Shakti Enterprise will:

- Inculcate understanding among employees that quality is everybody's responsibility & require their total involvement and commitment.
- Enhance employee's performance by providing proper tools, equipment's, trainings and competencies.
- Deliver services on time and within budget according to our customer needs.
- Professional management on every task or project.
- Practice the principle "Get it right first time" to maintain the quality standard.
- Obtain customers feedbacks & continually improve processes to suit to the organization's needs and improve effectiveness of Quality Management System.

We understand that the markets we serve have exacting demands and aim to meet them through high integrity local supply, innovation & traceability.

We've developed comprehensive quality systems to serve the power, petrochemical, oil and gas, and renewable energy industries and the markets they serve. These programs cover the full scope of our activities and comply with recognized industry standard.

WORK COMPLETION CERTIFICATE

INSULREF ENABLING ENERGY EFFICIENT PROCESSES

Date: - 20.11.2022

WORK COMPLETION CERTIFICATE
TO WHOM IT MAY CONCERN

This is to certify that **M/S SHREE SHIV SHAKTI ENTERPRISE, NEAR RAILWAY STATION RASHULPUR, SARAN, BIHAR** was awarded to the works of scaffolding erection & dismantling piping as well equipment works in DFCU unit, GGSB Bathinda site (Punjab).

LOI No. ITPL/DFCU/Scaffolding/S601 awarded to him on Dated 30.10.2020 against of our equipment & piping work at GGSB Bathinda DFCU project for period of two years that is till 30.10.2022.

The above works are completed under the execution by **M/S SHREE SHIV SHAKTI ENTERPRISE** and they have demobilized his all manpower on 2nd week of Nov.2022.

The Total order value executed by **M/S SHREE SHIV SHAKTI ENTERPRISE** up to 10.11.2022 is Rs.1,96,35,000.00 (Rupees One Crore Ninety-Six Lacs and Thirty-Five Thousand Only).

The above certificate has been issued on request by **M/S SHREE SHIV SHAKTI ENTERPRISE** for their further Tendering Purpose only.

We wish them success in future.

Shree Shiv Shakti Enterprise is committed to achieving and maintaining excellence in all aspects of its activities while operating safely and with integrity as detailed in our Business Code of Conduct. Economic considerations are not allowed to have an adverse impact on our people, assets, the environment and communities. Shree Shiv Shakti Enterprise recognizes that all incidents are preventable and strives for zero harm to serve the needs of current and future generations.

Health, Safety, Security, Environment and Social Responsibility (HSE) principles are integrated in our risk management, business planning and processes. Our passion for innovation combined with our culture of continual improvement in HSE increases our competitive advantage.

Scope

This policy applies to all Shree Shiv Shakti Enterprise employees and contractors under prevailing influence. This policy applies to all Shree Shiv Shakti Enterprise employees and contractors under prevailing influence.

Compliance

Shree Shiv Shakti Enterprise recognizes all underlying international ILO conventions and laws, and complies with all applicable national and industry HSE regulations.

HSE OMS

Shree Shiv Shakti Enterprise Health, Safety, Security, Environment and Social Responsibility Operating Management System (HSE-OMS) provides a framework for a company-wide integrated approach to Risk and Opportunity Management.

PROJECT MANAGEMENT

Shree Shiv Shakti Enterprise has demonstrated its ability to successfully manage industrial projects of all types and sizes, in all parts of the world.

Our project management experience covers all types of services and contracts, ranging from project management consultancy services as well as all types of contractual relationships.

Project management the Shree Shiv Shakti Enterprise way key to successful track record is our approach to project management, which comes into play even before the contract has been won, during the bidding phase.

CIVIL WORKS

Shree Shiv Shakti Enterprise has designed and managed most of the civil works related to with oil and gas process facilities, pipelines facilities, civil works substructure and superstructure for pipe rack foundation, equipment and technical structure even RCC pavement works and many more.

- Fabrication all types of steel structure
- Execution all types of concrete footing, slabs & piles
- Fabrication and installation all types of steel pipe
- Piling Works (Pored, precast, and sheet pile)
- Earthing works
- Road paving
- Camps Construction
- RCC Pavement Works
- Piping & Plumbing Works
- Steel Prefabrication
- Warehouses Construction
- Buildings Construction
- Concrete Batch Plant
- Asphalt Plant
- Concrete Works
- Piperack Foundation

MECHANICAL WORKS

Shree Shiv Shakti Enterprise relies on experienced professionals that have been engaged in all phases related to execution of mechanical projects in the country, ranging from consulting engineering activities to the construction and support to the start-up of large petro chemical plants, powerplant designed for use of the oil industry, as well as large urban and industrial areas. Moreover, our experience extends to feasibility studies, concept, basic and detail engineering, as well as management of Turnkey EPC projects.

Shree Shiv Shakti Enterprise also provides engineering, procurement and construction services applicable to new refinery plants, in large pipe-rack units. Other services include: studies and operational improvements or expansion of existing plants; as well as equipment services and operation maintenance/reliability plans.

- Installation of Rotating Equipment
- TEG Refrigeration Package).
- Installation of Stationary Equipment
- Fabrication and Installation of Storage Tanks.
- Installation of Fire Fighting Systems.
- Specialized of Hot Tapping.
- Cathodic Protection Services.
- Insulation of Stationary Equipment, Pipeline and Piping Systems.
- Hydrostatic Testing and Cleaning Services.
- Chemical Cleaning for Process and Stationary Systems.

LAY DOWN - PIPING & STRUCTURAL WORKS

Shree Shiv Shakti Enterprise handles highly efficient laydown works that provide the capabilities to safely and effectively handle nearly any size casing. The efficiency and versatility of our equipment provides advantages that many of our competitors cannot match. We also have the necessary equipment to handle your chrome tubing strings. The unit is self-contained with its own power pack, eliminating the need for a PTO and truck engine, greatly increasing the reliability. We also offer the most experienced crews in the industry-with each lead Operator having 6 or more years in lay down services.

Rather than conventional methods utilizing the mouse hole, v-door, and air hoist, while staging personnel close to the operation, our hydraulically operated trough type machine carries tubulars to and from the rig floor allowing personnel to keep a safe buffer zone between them and the operation.

FABRICATION & ERECTION WORKS

Metal fabrication is the building of metal structures by cutting, bending, and assembling processes. It is a value added process that involves the creation of machines, parts, and structures from various raw materials. A fabrication shop will bid on a job, usually based on the engineering drawings, and if awarded the contract will build the product. Large fab shops employ a multitude of value-added processes in one plant or facility including welding, cutting, forming and machining.

STRUCTURAL STEEL

Structural steel has a long list of benefits associated with it as a sustainable and highly reliable material for construction. However, the fabrication and welding processes necessary to transform structural steel into products used for construction and other industrial applications are complex and demanding. If you do not find a company who can pull them off properly the material's viability may be compromised. The processes used in structural steel welding take a special expertise that only some companies have Shree Shiv Shakti Enterprise has that expertise.

FIELD ERECTIONS

Our expertise in the field facilitates us to deliver application based Erection and fabrication of Structural Steel work services to our clients. These are presented as per the particular requirement of our customers. Advance, our services are cost valuable and delivered within the schedule and assure time.

PIPING WORKS

Whether a client has a small job or a massive undertaking for us, we treat it with same standard of professionalism and skill. Using only the best equipment and most modern techniques, we can complete any pipefitting job to the highest standard. When innovation is required, we can come up with strategies that will make your project work for you.

SCAFFOLDING WORKS

We are engaged in offering wide range of services related to Scaffolding work, which encompasses momentary structures. These structures are used in construction to support arched structures or spanning so as to hold all the apparatuses in place. Besides, our false work also embraces temporary support structures for form work, which is used to cast concrete into a desired shape. These services are rendered under the supervision of our professional staff. Furthermore, these services can be availed at leading industry rates.
